Count it: Eggs come in a dozen; this means that there are twelve eggs in the carton. Can you think of anything else that might come in a dozen?

Write it: Make as many words as you can using the letters from the word “scrambled.”

SCRAMBLED

Think it: Idioms are made of normal words that have a special meaning known to almost everyone. When someone says “you’re a good egg,” it means that you are a kind person. This is an idiom; it doesn’t mean the actual words used in the phrase. Below is a list of idioms. Do you know what they mean? Ask a grown up or an older sibling for help.

1. It’s raining cats and dogs!
2. I’ve seen the light!
3. You’re pulling my leg!
4. She let the cat out of the bag.
5. My new phone cost an arm and a leg.

Can you think of any other idioms that aren’t listed above?

Create it: In the story, the Good Egg tries to help anyone however he can. He stresses out trying to be good while trying to get the rotten eggs to behave at the same time. His head starts to get scrambled and he starts to crack! It happens to all of us sometimes. The Good Egg knew he needed to take care of himself so he took walks, learned how to paint, floated in the river and read books. Draw a picture of some of the things you do to take care of yourself when you get cracked and scrambled like the Good Egg did.
